Master of Science in Health Administration Program
Application Essay

The Master of Health Administration Program at Roberts Wesleyan College requires a considerable amount of writing, which must be done in accordance with graduate-level writing standards. Since grades are based on written assignments, admission to the program is predicated, in part, on the evaluation of your Application Essay.

ASSIGNMENT
In an essay of approximately 250-500 words, address the following:

Express your interest in the MHA program and what you expect to gain from your MHA education. Discuss relevant professional, academic, and personal experiences or responsibilities that demonstrate your commitment to your own leadership development, as well as that of other cohort members. Please include your most rewarding and your most challenging leadership experiences.

INSTRUCTIONS
- Respond to the assignment in standard written English
- The paper should be double-spaced, using 12-point font (typically Times New Roman), with one-inch margins on all sides
- Submit your essay in hard copy or as a Word document attachment emailed to the Admissions Coordinator
- Include your signature at the end of your essay. (The Admissions Council will consider your name, either handwritten or typed at the end of your essay, to be verification that you are the sole author.)

NOTE: While successful completion of the Application Essay is a requirement for admission to the Master of Health Administration Program, it does not guarantee admission to, or successful completion of, the program.
