

# CROSS-DISCIPLINARY STUDIES

LEARN TO *Live*

## FIND YOUR PASSION

### DESIGN YOUR DREAM MAJOR THROUGH CROSS-DISCIPLINARY STUDIES

Is it challenging to fit all of your passions into one major? It's easy when you're allowed to blend three of your passions into one custom major.

Drawing upon pre-existing majors and minors, you'll have the freedom and guidance to choose a combination to achieve your unique goals and maximize your potential. Learn to live your one-of-a-kind calling!

#### CAREER SUCCESS

**95%**

of graduates  
are employed  
in their field

#### FLEXIBLE PATH TO GRADUATION

**3,000**

possible  
combinations to  
create your  
own major

#### CUSTOMIZE YOUR STUDIES

##### Customization

Combine one  
existing minor &  
two areas of  
study from  
Roberts' offerings

# PROGRAM DETAILS

## HOW DOES THIS WORK?

First, you'll select a minor from our rich array of options. Then, you'll pick two different areas of study, such as Business, Computer Science, Education, Visual Arts, and more. You can draw from three distinct fields or study three facets of the same topic. You'll receive individualized support from your faculty advisor every step of the way!

You'll cap off your experience with the Senior Integrative Project. This capstone project helps you look back on the three areas of study, reflect on your personal journey, and how your studies have complemented each other.

At Roberts Wesleyan University, your education isn't just a series of courses. It's your tailored experience, built on a foundation of faith. Follow God's calling to chart your own course.

## STUDENT SPOTLIGHT

**Colleen Denny '19 combined her love of communication, foreign languages, and philosophy.**

She says, "I have two jobs at my school at an international boarding school: I'm a Spanish teacher and I'm also a house parent, meaning I live with 6 international students. I really love having variety in my day, and it's a rewarding job in both aspects.

The communication and foreign languages come in handy, of course, with teaching Spanish, but also with understanding the variety of cultures that my house daughters come from. At Roberts, I took courses in cross-cultural communication, education communication,

and second language learning. My foreign language area (Spanish, French, and Portuguese) has come in handy with the international students!

Now I'm starting my journey toward my Doctorate of Modern Languages. Joining the Cross- Disciplinary Studies program means I had the privilege of saying 'yes' to all of my interests, shaping myself into a well-rounded and well-prepared professional."
