

Professional Licensure Disclosure

Occupational Therapy Program

*Roberts Wesleyan University | Pursuant to 34 CFR §668.14 and §668.43 | SARA Policy Manual, Version 25.2
Last Reviewed: March 2, 2026*

Roberts Wesleyan University has made program-specific determinations regarding whether the educational requirements of the Occupational Therapy program listed below meet the requirements for professional licensure or certification in U.S. states and territories where the University enrolls or recruits students. These determinations address educational requirements only. Individual licensure decisions — including examination performance, background checks, and other personal eligibility factors — are made by state licensing boards and are outside the scope of this institutional disclosure.

A determination of "Does Not Meet" includes programs for which a formal determination has not yet been completed; per federal regulation, an undetermined status carries the same practical effect as "Does Not Meet" for disclosure and Title IV financial aid eligibility purposes.

Students enrolled in the OTD program who reside in a state listed under "Does Not Meet" will receive an individualized disclosure and must complete a Student Attestation of Professional Licensure or Certification prior to enrollment. Questions should be directed to the Office of Registration at 585.594.6220.

***Note on OTD Licensure Requirements (ACOTE):** Per the Accreditation Council for Occupational Therapy Education (ACOTE): *"All 50 states and the District of Columbia have the same core licensure requirements. Applicants need to graduate from an accredited occupational therapy program, complete a course of supervised fieldwork, and pass the NBCOT entry-level certification exam."*

As a result, Roberts Wesleyan University's OTD program has been determined to meet the educational requirements for licensure in all 50 U.S. states. U.S. territories are not included in this determination; students residing in U.S. territories should contact the Office of Registration for guidance.

This disclosure does not guarantee that any state licensure or certification entity will approve or deny an individual application, and does not account for changes in state law or regulation occurring after the date of this disclosure. This disclosure will be updated as changes in state requirements become known.
